

Frameworks

Scholarship Partner Program

Become a sponsor and help high school students in Hillsborough County participate in a 10 month civic engagement and leadership program where they will develop strong social-emotional skills and serve their community.

myframeworks.org/teens-in-action/

Mission

Frameworks of Tampa Bay, Inc. is a non-profit organization that empowers educators, youth services professionals, and parents/guardians with training, coaching and research-based resources to equip students with social and emotional skills.

These skills include:

- Self-Awareness
- Self-Management
- Social Awareness
- Relationship Skills
- Responsible Decision-Making

About Teens In Action™ and the Scholarship Partner Program

Frameworks' Teens In Action™ is a 10-month civic engagement and leadership program grounded in social and emotional learning (SEL).

Teens In Action's 9th-12th grade participants from schools across Hillsborough County engage in SEL workshops with insightful guest speakers to equip them with the emotional intelligence skills necessary for personal, academic, and professional success. The teens then apply these skills through weekly volunteerism, enriching both the community and themselves.

We have comprehensive criteria our Teens In Action™ participants must meet to qualify for the program. The one criterion that can be challenging for some is the cost of the program. This is where you and/or your company can make a difference in a student's life by joining our **Teens In Action™ Scholarship Partner Program** and sponsor high school students to participate in the program.

What is SEL?

SEL is an integral part of education and human development. Social and emotional learning is the process through which all young people and adults acquire and apply the knowledge, skills, and attitudes to develop healthy identities, manage emotions and achieve personal and collective goals, feel and show empathy for others, establish and maintain supportive relationships, and make responsible and caring decisions.

What is the outcome of the program?

Teens In Action™ is supported by data. At the beginning of each program year, Teens In Action™ participants evaluate themselves in a survey about key social and emotional competencies. The teens then complete the same survey as a post-assessment after they graduate. According to teens' self-reports from the 2019-2020 program year:

- **65% of teens improved their self-management skills** (such as using calming strategies, showing resilience, and taking initiative)
- **65% of teens improved their social awareness** (such as listening to others and understanding how others think and feel)
- **70% of teens improved in relationship skills** (such as solving problems with others, expressing disagreement in constructive ways, and working well in teams)

Why is this important?

When young people have social and emotional skills, they have a toolbox to pull from when they face any challenge, big or small. SEL proactively builds that toolbox, so it is best done before significant problems arise. Help us set more students up for the success they deserve. Sponsor a student today and invest in a bright future of tomorrow!

Outlined below are the various levels of sponsorship opportunities and associated benefits with each level.

Opportunities to Engage

All Teens In Action™ scholarship partner benefits include the opportunity to engage with scholarship recipient and to attend Teens In Action™ monthly workshops, and events throughout the year.
